

CUSTOM PRODUCTS

Complete Versatility

We take pride in our excellent customer service and our versatile products. If our standard product line does not have the product that you need, we will gladly work together with you to design and create the perfect Insulation Snakes® solution for any project.

SOME CUSTOM PROJECTS WE'VE WORKED ON:

- Control Valves
- Pumps
- DeHy Units
- Mud Tanks
- Regulators
- Water Slides
- Cavity Pumps

SnakeSTRAPS

Wrap It and Strap It

Our custom molded nylon SnakeSTRAPS are designed to be the most effective method of fastening your Insulation Snakes® products. Made of 1" webbing and a special buckle that is designed to protect against overtightening which reduces the effective R-Value.

INSULATION SNAKES

INSULATION FOR ANY SITUATION

REMOVEABLE

REUSEABLE

WEATHERPROOF

SIDEWINDER®

Ultimate Ease of Use

USAGES:

Ideal for piping systems that are required to be easily accessible.

SIZING:

PIPE SIZE: ¼" - 28" NPS
LENGTH: 1' - 20'

INSTALLATION:

Fold the SIDEWINDER over the length of the pipe and fasten it using the integrated, SNAKESTRAPS. Tuck in the ends. Repeat as necessary.

SNAKE BITE

Instant Accessibility

USAGES:

Ideal for Infrastructure components such as flanges or valves that demand convenient maintenance access or prove difficult to insulate using conventional methods.

INSTALLATION:

Lay the SNAKE BITE down the width of the object and fasten using the attached SNAKESTRAPS.

SIZING:

Can insulate objects up to 12' in diameter.

THE "ORIGINAL" INSULATION SNAKE®

Industry Standard

USAGES:

Spiral wrapped over pipe, flanges, and more. Extremely versatile.

SIZING:

PIPE SIZE: Any
LENGTH: 1' - 20'

INSTALLATION:

Wrap around the length of pipe in a spiral pattern. Tuck in both ends and fasten with SNAKESTRAPS. Repeat as necessary.

PRO-WRAP

Propane Protection

USAGES:

Cover that prevents propane from freezing.

INSTALLATION:

To see installation instructions, visit the PRO-WRAP page on our website at www.insulationsnakes.com.

SIZING:

Verticle: 20 - 420lbs
Horizontal: 500 - 2000 gal

IN-LINE HOOD

USAGES:

General insulating hood cover for objects that are mounted at a right angle to a pipe.

SIZING:

CIRCUMFERENCE: 2'-16'
HEIGHT: 1'-10'

RISER HOOD

USAGES:

General insulating hood cover with a strap around the base of the hood.

SIZING:

CIRCUMFERENCE: 2'-16'
HEIGHT: 1'-10'

WELL-WRAP

USAGES:

Removeable, reusable insulation blanket cover for wellheads.

SIZING:

CIRCUMFERENCE: 6'-32'
HEIGHT: 3'-8'

PLUNGER LIFT LUBRICATOR COVER

USAGES:

Covers plunger lift lubricators.

SIZING:

3 Standard Sizes.

HIGH TEMP INSULATION

In Development

USAGES:

Insulation that reduces heat loss in high temperature systems. Contact us for more info.
